Star astro-architecture

Men have horoscopes but even a house could apparently have one. Surprised? Well that's what the science of astro-architecture discovered by Neeta Sinha says.

A celebrity astrologer and professional Kundli (horoscope) maker Neeta has been practising this science for the last 17 years. She says, "My studies have proved that every architectural structure has a horoscope depending on the name of its owner. If these two horoscopes aren't in sync then the owner could face difficulties in life."

Consultant to top businessmen like Kumaramangalam Birla and the Ambanis, Neeta is also a favourite of Bollywood stars like Amitabh Bachchan and Shah Rukh.

She says, "After devising the horoscope of an area, I balance the negative and positive energies of that place without making any structural changes." Neeta does this by using colours, water bodies and plants.

sha herself noticed the changes in her life after my consultations. She later told me that my suggestions had really worked for her.

Sonali Bendre-Behl
Sonali and her husband, producer Goldie Behl, consulted me before they bought their new house. They designed both the houses as per my instructions and they have seen the results for themselves. While in their old residence Goldie's production work was suffering, after shifting to the new house, his production work has picked up.

Neeta shared with us the suggestions she gave top Bollywood stars and how these affected their life and career

Amitabh Bachchan

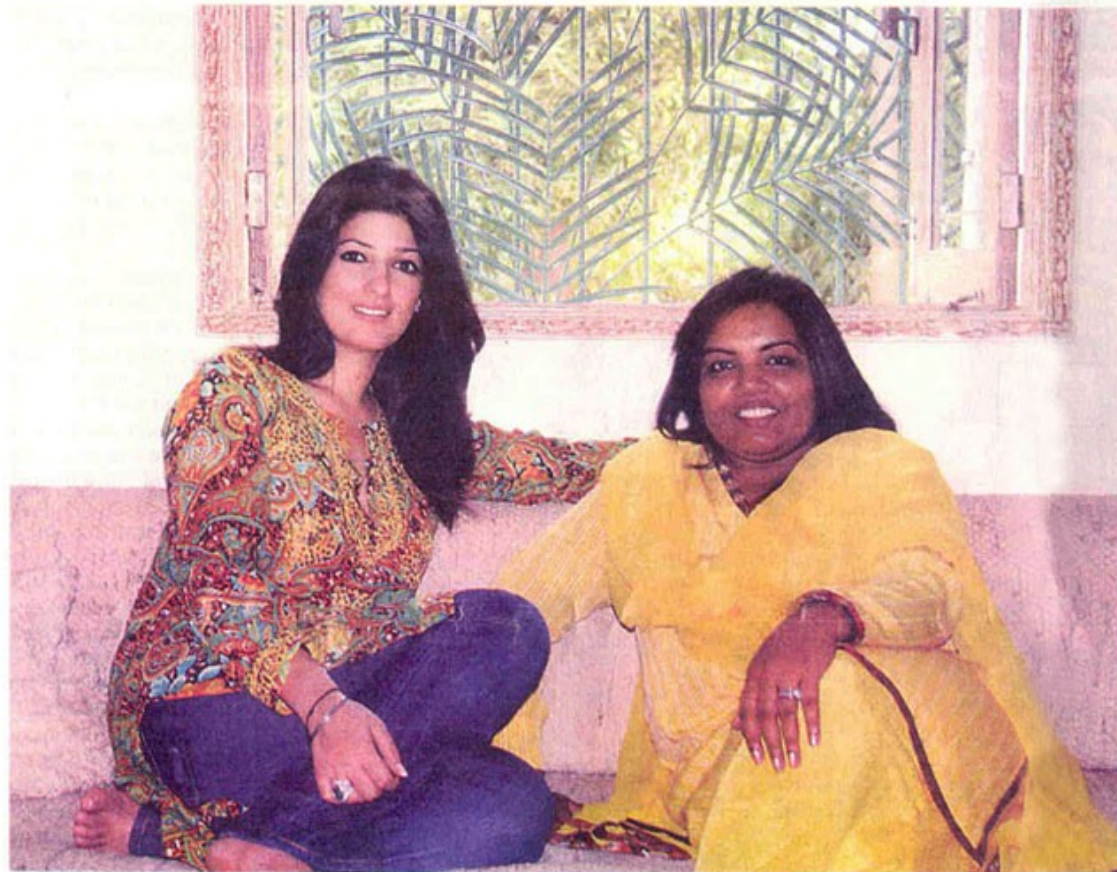

When I studied Amitji's new bungalow the only problem I found was with its name, Mansa; hence I advised him to change it. I told him to name his house with a letter starting with the alphabet J. Amitji took my advice and re-named his bungalow Jalsa. Today, this bungalow has become a landmark in Juhu. You can also see the change in his career. Even at this age, he's the most wanted actor in the industry.

Abhishek Bachchan

I always felt that Abhishek could prosper only if he had a house in his name. I suggested this to him but then he could only buy one later in his career. Once Abhishek bought his own property, I was able to balance it and he started to see a positive growth. Abhishek is a very hard-working boy but it took a lot of time for him to succeed in life because apart from hard work, you also need the right energy around you. As far as his personal life is concerned, Abhishek and Aishwarya's stars match well but I feel Abhishek's third relationship will be successful for him and I'm not revealing anything more.

Akshay Kumar

Akshay and Twinkle are

Neeta Singh with Twinkle Khanna

like family to me. Akshay has been consulting me since before he was married. At that time, his films weren't doing well. I asked him to buy a house in his real name, Rajeev Bhatia. He did just that and since then, Akshay's career has only seen an upward change. I also

asked Twinkle to rename her interior store White Window, to The White Window, as the latter would be luckier for her. Now her store and brand is famous even internationally.

Shah Rukh Khan

When I visited Shah

Rukh's Bandra bungalow I sensed certain bad and negative vibrations. At that time, he hadn't named his house and I told him to name the bungalow with a word starting with M. He took my suggestion and named his house Mannat and since then, most of his wishes

have come true!

Manisha Koirala

In her house, Manisha had placed mirrors in all the wrong places so I asked her to get that changed. Manisha had also placed a fish pond in a rather careless manner so I corrected that. Mani-

Nagma

Nagma came to me when she decided to re-construct her apartment in Bandra. I studied her astrological chart and realised that her film career would end soon. I also found that Nagma was going to change her career. When I told her this she was very upset. I made a few changes in her house and she's doing exceptionally well in Bhojpuri films as well as politics. ■

EXPERT TIPS

Here are a few tips from Neeta that could help alleviate negative elements from your home and you could see the positive effects in your life within a few weeks.

- The entrance of a house should never be in the south or south-east direction
- Keep a flowing water body such as a fountain or fish pond in the southern direction
- The simplest way to get rid of negative energy is to place a flowing money plant in your home
- Have at least three dropping plants in one's home
- Wind chimes clean negative air from the home and hence should always be placed near windows
